

EPPSA is pleased to announce its new President: Dr Martin Pogoreutz of Andritz

EPPSA's Secretary General, Mr Patrick Clerens, is pleased to announce that **Dr Martin Pogoreutz**, Vice President Power Plant Service at Andritz, **was voted as the new President of the European Power Plant Suppliers Association** in the General Assembly which was held in Brussels on 22 January 2018.

The Secretariat and all EPPSA members would like to take this opportunity to thank Dr Professor Emmanouil Kakaras for his service as President of EPPSA. His guidance and direction has been integral to the association over the last 5 years.

In anticipation of the passing of the Clean Energy legislation, EPPSA sees 2018 as a crucial moment for Europe in leading the world towards the goals of the Paris Agreement. Under the presidency of Dr Martin Pogoreutz, EPPSA will work with the European Union helping it achieve its targets of Net Zero by 2050 through the promotion of state-of-the-art Thermal Power technologies.

“EPPSA and its members look forward to the continued role the energy industry plays in the energy transition and combating climate change”.

Dr Martin Pogoreutz, EPPSA President

The European Power Plant Suppliers Association (EPPSA) is the voice, at European level, of companies supplying power plants, their components and related services. EPPSA members, located throughout Europe, represent a leading sector of technology with more than 100 000 highly-skilled employees.

EPPSA actively promotes awareness of the importance of flexible and efficient, state-of-the-art thermal power generation and its crucial contribution to ensuring a clean, secure and affordable energy supply. EPPSA believes increased investment in Research, Development and Demonstration is a key factor in driving EU competitiveness as well as ensuring an affordable low emission power supply.
